Limo Studio has grown to be a leading advanced photo/video equipment company. Through its core management system of the production line, Limo Studio quickly became a globally recognized provider of photo/video lighting solutions by a full spectrum of photographers. Over the next decade, Limo Studio continued to expand its product offerings with core technology on all of its products. And currently as an industry leader, our company provides access to outstanding quality equipment on many different applications and customization to professionals that help them use lighting equipment more effectively.

We develop, manufacture, and market portable, yet high performance products including flash heads, light modifiers, light stands, tripods, background, bulbs, for use in personal/commercial/industrial photography and videography applications. Our company's portfolio of trusted brands offers consumers unmatched and innovative products across the globe. Through the visionary leadership, we have come together to provide a vast breadth and depth of professional products, an unrivaled market offering and a strong international presence to supply unprecedented levels of creativity and productivity. This combination of organic and external growth has positioned Limo Studio among the world's leading technology providers for the photo/video equipment industry. With creative development along with strong quality control, Limo Studio remains on a short list of manufacturers capable of offering the breadth and depth of cutting edge products to so many professionals throughout the world.
